Says Mexico Was Not Neutral.

"The American people ought to know," he continues, "that Mexico was not neutral during the war, but an enemy active to the extent of its limited capacity."

Mexico gave no fewer than eighty German officers' commissions in the Mexican army and assigned them to train troops for service against the United States. German uniforms were worn so commonly in Mexico that even the local Mexican papers complained about it. By Carranza's direct orders Mexican telegraph wires were thrown open to German code messages.

From Carranza to Governor Calles to permit the spy Wabinski to send code messages freely.

Throughout Mexican officials are alleged by Dr. Altendorf to have been on the pay roll of the German embassy.

Saw Money Exchanged.

Dr. Altendorf states that he personally, late in November, 1917, carried a request for Rademacher, the German consul at Guaymas, for \$150,000, saw the money put in a trunk and carried it to the United States.

Continuing the statement says: "I was unable to discover that Von Eckhardt has guaranteed to Carranza an abundance of capital to turn Mexico into an industrial country. In fact, Von Eckhardt went to Germany last April for the express purpose of financing great chemical plants, textile factories, and other industries."

As soon as the railroads there will be a beehive of 250,000 Germans from the United States, who will take with them the money they have made in Mexico. There are already 150,000 Germans in Mexico, and German immigration on a large scale is being turned into the country into a German colony.

Why Americans Are Forced Out.

The activity of Carranza in driving Americans out and confiscating their property is explained by the fact that Carranza has plenty of money and is ready to pick up the property at bargain rates.

The full significance of all this becomes apparent when I tell you that the plan of Carranza is to provide for great munition plants at Mexico City, which will make it unnecessary for Mexico to import war materials in the future. The treaty of peace restricts the manufacture of munitions of war in Germany, but it does not say anything about Germany manufacturing as large quantities as they please in Mexico. Thus there is a practical difficulty in the way of Germany's plans for the next war.

German agents are active everywhere in the United States. They have told us there is to be extensive German immigration to that part of the world in the near future. The result of the war did not end the German dream of world conquest; it merely delayed it.

GOVERNOR WILL NOT MOVE IN JOHN SHILLADY CASE

State Executive Also Advises That Propagandist Will Do Well to Keep Out.

(By Associated Press.)

AUSTIN, TEXAS, August 23.—Governor W. P. Hobby, in a telegram today to officials of the National Association for the Advancement of Colored People, said John R. Shillady, the organization's secretary, who was beaten and ordered out of Austin yesterday, was "the only offender in connection with the matter."

The telegram sent by the Governor was in reply to an inquiry from the executive committee of the organization, asking what efforts were being made to punish those who attacked Shillady. The governor's reply was:

"Shillady was the only offender in connection with the matter referred to in your telegram, and he was punished before your inquiry."

"Your organization can contribute more to the advancement of both races by keeping your representatives and their propaganda out of this State than by any other way."

The telegram sent to the Governor, which was signed by Mary White Ovington, said Mr. Shillady is a man of great importance in the German propaganda movement in the United States. He has served as secretary and concluded:

"I am sure that the right of meeting members of the Austin branch of this organization, who are asking you what efforts are being made to punish the offender, is a matter of public interest."

There was no official information, while Shillady was in the city, as to what transpired before the court in the case of the jury under Texas law. It was said, however, that Shillady had been questioned regarding his attitude and that of his association toward racial equality.

GOVERNOR REMOVES SHERIFF FROM OFFICE

Charges Official Failed to Restore Order in Tampa, Fla., and Also That He Is Partial to the Shippers.

(By Associated Press.)

TAMPA, FLA., August 23.—Governor Catts, who arrived at Lakeland today, accompanied by Assistant Attorney-General Trammell, for the purpose of endeavoring to settle the phosphate strike, issued an order for the removal of Sheriff John Logan, of Polk County, in which most of the mines are located.

The charge against the sheriff, pressed by Trammell, is that he is unable to maintain order, and that he is partial to the shippers. He will be formally notified Monday.

James M. Langford, former member of the Lakeland City Council, and for some connected with the phosphate business, has been named to succeed Sheriff Logan.

Friends of the sheriff said that he would resist attempts to oust him, and would not vacate until compelled to do so by legal authority. He had been given no opportunity, they said, to refute the charges against him.

WOMAN STRIKERS DRAG GIRL FROM MACON MILL

Knitting Company Appeals to Police, Who Are Also Union Men, for Aid.

(By Associated Press.)

MACON, GA., August 23.—Women textile workers on strike here today dragged a girl from the fourth floor of a mill and then threw her across the yard for a block. Police rescued the girl, Thelma Mason, and it was stated tonight that she was not seriously injured.

It was the first serious trouble of the strike of textile workers, in which nearly 1,000 persons are involved up to date.

The Bibb Manufacturing Company claims that only a part of its employees at the No. 2 mill are out. Those who have joined the union have been discharged, it is said.

Three hundred workers were still out at No. 1 mill in East Macon. There was no trouble at other mills here during the day. Meetings of textile workers were held in various parts of the city during the day, and a general mass-meeting to be addressed by Ross Copeland, president of the American Federation of Labor, is set for tomorrow in the City Auditorium.

The company announced that it would not meet in operation Monday. No more men have been asked for police protection in operation Monday. The police of this city and the city firemen recently joined unions.

MEXICAN PAPER SUGGESTS PLAN FOR INTERVENTION

Seizure of Frontier Posts and Custom-Houses Would Weaken Carranza Government.

(By Associated Press.)

WASHINGTON, August 23.—Possibility of American intervention in Mexico is freely discussed by the Mexico City newspapers, according to information reaching officials of the State Department. Particular interest was manifested here today in one article appearing in the "A. B. C." which is said to have created something of a sensation in the southern republic.

This article points out in detail seven ways in which the United States might intervene, and discusses each at length. The seven methods enumerated are:

1. Complete invasion, which the paper admits would result in victory for the United States.

2. Partial invasion by seizure of frontier posts and custom-houses, which it said "would weaken the Carranza rebellion, disorganize the constitution, and cause Carranza and his system to topple like a pack of cards."

3. Aiding or recognizing some rebel group.

4. Naming of a group of Mexicans and assisting them in the formation of a government.

5. Withdrawal of recognition from the present government, which, the paper said, would be tantamount to recognition of the rebels.

6. Presenting an ultimatum to the government requiring assurances that the rebellion would be ended in a definite period; payment of foreign claims within a prescribed time; resumption of foreign debt service; and final disposition of the petroleum question.

7. The paper said the present government could not give these assurances.

WILL MAKE FORCED LOANS

Italian Government to Require Wealthy Citizens to Take Government Bonds.

(By Associated Press.)

WASHINGTON, August 23.—The Italian government will not make a general levy on property, but will obligate Italian citizens residing within the kingdom to subscribe to a loan of 1,000,000,000 lire.

The plan was announced today in an official dispatch from Rome. The amount each citizen is to contribute will be proportionate to his fortune.

Denies Veterans' Charges.

KNOXVILLE, TENN., August 23.—Governor R. B. Cook, of the Soldiers' Home at Johnson City, today denied charges by soldiers who have filed a protest against conditions at the home.

He said the complaining men are tubercular patients, and are segregated, which fact may explain their discontent. He said government inspectors declare the Johnson City home to be the best in the United States for tubercularly affected soldiers.

May Send Troops to Siberia.

PARIS, August 23.—The Supreme council today discussed the question of sending troops to Siberia, in case the Germans are willing to permit foreign troops to enter the United States for purposes before the peace treaty has been ratified.

700 ACTORS AND ACTRESSES FORM NEW ORGANIZATION

Will Attempt, Under George M. Cohan's Leadership, to Restore Theatrical Harmony.

(By Universal Service.)

NEW YORK, August 23.—Seven hundred actors and actresses met in the Hotel Biltmore, voted to form a new organization under the leadership of George M. Cohan for the purpose of saving the theater "from utter ruin and to restore harmony between stage folk and the managers."

Cohan, who was sent for after a stormy session and installed as leader of the new movement, received an ovation. Among those who joined in applauding him were Louis Mann, David Warfield, Amelia Bingham, Janet Beecher, Mr. and Mrs. Cohan, Burr McIntosh, Howard Kyle and Joe Weber.

After expressing his willingness to give his financial and moral support to the new organization Cohan said: "I've been called cut-throat, scab and highwayman in the past three weeks, but I don't believe I was ever so much the friend of the actor as at this minute. I want no more of the limelight. Dave Belasco said the other day that if the wind blew a certain way he'd never produce another play. I guess whichever way the wind blows I'll never produce another either. Anyway, I'm with you to the grand finale."

The new organization will invite all striking actors to join its ranks, with the assurance that all demands except recognition of the union will be granted by the managers. Negotiations with the managers for settlement of the strike are to begin immediately.

Catholics to Form Scouts.

NEW YORK, August 23.—Formation of a Boy Scout troop in every Catholic parish in this country was urged at a resolution unanimously adopted at the opening session here today of the forty-third annual convention of the Catholic Young Men's National Union, which has a membership of 150,000 young men.
